

English

We will be putting our views and opinions into a speech about our world and the role we play in helping it. We will look at fiction pieces.

Reading- Our class text is '*Song of the Dolphin Boy.*'

Geography

We will be learning the names of all of the oceans and looking and how they differ to the seas. We will look at atlases and on Google Earth to see how much of the planet is sea and the labelling the oceans on a map. We will look at human geography and the effect we have on the world. We will also do a comparative weather study.

Music

We will be singing different songs about the ocean, sea shanties and using different instruments that sound like the sea.

PE

It is important to look after our world and ourselves! We will be focussing on balance and how to keep our bodies still. We will use different apparatus to balance and also balance on different parts of our bodies.

PSHE- Dreams and Goals

We will learn about the range of emotions we experience and why it is okay feel them.

RSHE

We will look at what it means to look after ourselves.

Maths

We will be looking at picture graphs and the different information that graphs can give us. We will be gathering data to make our own and asking and answering questions about them.

We will be learning about Money. We learn the amounts of different coins, how to add them together and how to give change. We use all of our previous knowledge about multiplication and division to count coins in 2ps, 5p's and 10 p's.

Under the Sea

What is my role in looking after the Earth?

The problems in plastic pollution the human impact on our earth and oceans.

Values

2 Year Cycle	
Hope	Cooperation
Courage	Happiness

Concept- Sustainability

Science

We will be looking at the different zones of the oceans and which sea creatures live in the different layers. We will be exploring plastic and what it is made of, trying to make our own. We will look at food chains in the ocean and investigate which birds live around our school.

Computing

We will learn what algorithms are and how to code. We will programme the Beebots to explore different maps and then create maps of our own for others to programme.

RE

We will learn about Rosh Hashanah and the Jewish New Year. Pupils will know the foods eaten by Jews at Rosh Hashanah and their significance. They will know the significance of the Shofar. They will know that the New Year celebrated in the UK is not a religious festival and they will be able to talk about how it is celebrated.

Art/DT

DT- Cooking: We will be making shell madeleine cakes with Mrs Noonan.

Art- We will be using Paint 3D on the laptops to create our own sea pictures. We will follow drawing videos to learn how to draw different sea animals and how to shade.

Previous learning links-

In reception the children learnt of the existence of oceans. In year 1 the children looked at polar regions in geography and the impact on them. The children in year 1 also focused on the location of the seaside and natural landmarks.
