

## Term 5

### Weeks 3, 4 & 5

# Out of This World!

**Key Vocabulary:** Space, Earth, planets, moon, astronaut, rocket, comet, sun, galaxy.

#### Key Learning Points:

That there are different planets to where we live

How you travel in space

That there are different job roles linked to space

That the moon landing was a significant event for humans

That there are different environments to where we live

#### Key Dates:

Tuesday 16<sup>th</sup> - **Wonderdome planetarium (in school)**

Thursday 18<sup>th</sup> - Whole Class Photos

Friday 19<sup>th</sup> - Year 6 Enterprise

Friday 26<sup>th</sup> - Last day of term

#### In maths we will...

- Introduce the numbers 14, 15 & 16. We will be able to count forwards and backwards from the number, identify them on a number line and accurately count that many objects.
- Discover how numbers & amounts can be doubled.
- Work out which numbers can be halved.
- Share different numbers equally looking at patterns.

*Phonics – Continuing in groups linked to assessments and attainment.*

#### In literacy and topic, we will...

- Learn the story of 'Whatever Next' using story words and actions
- Plan and write our own space story
- Explore key questions such as - What is gravity? What is a star? What is a planet? What do astronauts do? How does a rocket launch?

#### Other activities and learning...

- Begin to learn our summer dance
- Design and create space models such as rockets and planets
- Take part in space training days in PE
- Using different materials for painting and crafts
- Learn about the moon landing and understand that it took place in the past - link to what is happening in the present.
